### POLICY STATEMENT

#### 1. VALUES

Shine Bright EYM is committed to:

- providing a safe and healthy environment for all children, staff, volunteers, students on placement and any other persons participating in or visiting the service
- responding to the needs of an injured, ill or traumatised person at the service
- preventing injuries and trauma
- preventing the spread of illness through simple hygiene practices, monitoring immunisation records and complying with recommended exclusion guidelines
- maintaining a duty of care to children and users of all Shine Bright EYM services.

#### 2. SCOPE

This policy applies to the Approved Provider, Nominated Supervisor, Certified Supervisor, educators, staff, students on placement, volunteers, parents/guardians, children and others attending the programs and activities at Shine Bright EYM services, including during offsite excursions and activities.

#### 3. BACKGROUND AND LEGISLATION

##### Background

People responsible for managing early childhood services and caring for children have a duty of care towards those children. All service staff have a responsibility and a duty of care to act to prevent accidents and emergencies at the service.

An approved service must have policies and procedures in place in the event that a child is injured, becomes ill or suffers trauma. These procedures should be followed and must include the requirement that a parent/guardian be notified in the event of an incident, injury, illness or trauma relating to their child as soon as possible and within 24 hours of the occurrence.

The National Regulations require an accurate *Incident, Injury, Trauma and Illness Record* to be kept and stored confidentially until the child is 25 years old (Regulation 183(2)).

Under the national legislation, each service must ensure that an entry is recorded in the *Incident, Injury, Trauma and Illness Record* for the following occurrences:

- an incident in relation to a child, an injury received by a child or trauma to which a child has been subjected

- an illness that becomes apparent.

Details that must be entered in the *Incident, Injury, Trauma and Illness Record* include the following:

- the name and age of the child
- the circumstances leading to the incident, injury or trauma, or relevant circumstances surrounding the child becoming ill (including any symptoms)
- the time and date the incident occurred, the injury was received or the child was subjected to the trauma, or the apparent onset of the illness
- the action taken by the service, including any medication administered, first aid provided or medical personnel contacted
- details of any person who witnessed the incident, injury or trauma, or the apparent onset of illness
- the name of any person the service notified, or attempted to notify, of any incident, injury, trauma or illness that a child suffered while being educated and cared for by the service, and the time and date of the notifications/attempted notifications
- the name and signature of the person making an entry in the record, and the time and date that the entry was made
- signature of a parent/guardian to verify that they have been informed of the occurrence.

All information will be included in the *Incident, Injury, Trauma and Illness Record* as soon as is practicable, but not later than 24 hours after the incident, injury or trauma, or the onset of the illness.

Medical emergencies may include serious health issues such as asthma, anaphylaxis, diabetes, fractures, choking and seizures. Such emergencies generally involve only one child, however they can affect everyone in the children's service. In some cases it will be appropriate to refer to specific policies for guidance, such as the *Dealing with Medical Conditions Policy, Asthma Policy, Anaphylaxis Policy, Diabetes Policy and Epilepsy Policy*.
