## 2. BACKGROUND AND LEGISLATION

### Background

*The Education and Care Services National Regulations* requires approved providers to ensure their services have policies and procedures in place for children's sleep and rest.

*The Early Years Learning Framework* (EYLF) and the *Victorian Early Years Learning and Development Framework* (VEYLDF) include a focus on social, emotional, spiritual and physical wellbeing and health. Development Outcome 3 in both framework documents refers to a child's ability to take increasing responsibility for their own wellbeing. One of the indicators for this capacity is that children "recognise and communicate their bodily needs (for example thirst, hunger, rest, comfort, physical activity)". The EYLF suggests that to promote this, educators should:

- consider the pace of the day within the context of the community
- provide a range of active and restful experiences throughout the day, and support children to make appropriate decisions regarding participation.

Holistic approaches recognise the importance of physical, mental and spiritual wellbeing. Educators who provide a range of active and restful experiences throughout the day support children's individual requirements for health, nutrition, sleep, rest and relaxation.

Employers have a responsibility under the *Occupational Health and Safety Act* to provide a safe and healthy working environment. This duty extends to others present in the workplace, including children and volunteers. Providing a safe environment for children at the service includes complying with current Australian/New Zealand standards in relation to equipment, such as cots and mattresses (refer to *Attachment 2*).

### Legislation and standards

Relevant legislation and standards include but are not limited to:

- *Australian Consumer Law and Fair-Trading Act 2012*
- *Australian Consumer Law and Fair-Trading Regulations 2012*
- *Australian/New Zealand Standard – Cots for household use – Safety Requirements (AS/NZS 2172:2010)*
- *Australian/New Zealand Standard – Cots for day nursery, hospital and institutional use – Safety Requirements (AS/NZS 2130:1998)*
- *Education and Care Services National Law Act 2010*
- *Education and Care Services National Regulations 2011*
- *National Quality Standard, Quality Area 2: Children's Health and Safety*
- *Occupational Health and Safety Act 2004*

## 3. DEFINITIONS

**Hazardous Manual Handling:** Manual handling is work where you have to lift, lower, push, pull, carry, move, hold or restrain something. It's hazardous manual handling if it involves:

- repeated, sustained or high force
- sustained awkward posture
- repetitive movements
- exposure to sustained vibration
- handling people or animals
- loads that are unstable, unbalanced or hard to hold.

**Red Nose Australia** (formerly SIDS and Kids): Recognised national authority on safe sleeping practices for infants and children (*refer to Sources*)

**Relaxation:** Relaxation or other activity for bringing about a feeling of calm in your body and mind

**Rest:** A period of inactivity, solitude, calmness or tranquillity, and can include a child being in a state of sleep.

**SIDS (Sudden Infant Death Syndrome):** The sudden and unexpected death of an infant under one year of age with an onset of a fatal episode occurring during sleep, that remains unexplained after a thorough investigation, including performance of a complete autopsy and review of the circumstances of death and the clinical history.

**Sudden and Unexpected Death in Infancy (SUDI):** A broad term used to describe the sudden and unexpected death of a baby for which the cause is not immediately obvious.
